

***FOR IMMEDIATE RELEASE***

**SEC Group, Inc. One of the “Top 50 Public Works Firms in the  
U.S.”**

**(July 29, 2008) McHenry, IL** – SEC Group, Inc. has been named one of the “Top 50 Firms in Public Works in the United States” by *Public Works Magazine*. The article appears in the July 2008 issue of the national trade publication, which is read by more than 70,000 public works professionals. The list was compiled by the magazine based on the type of services, specialties offered and how much work was done in 2007; both in dollars and number of projects.

*Public Works Magazine* is published monthly and has been distributed nationally for more than 100 years. The Hanley Wood publication is focused on the information needs of local governments and the consultants who work with them as they operate, build and maintain the public infrastructure. For more information or to read the complete article, visit <http://www.pwmag.com>.

SEC Group, Inc. is an award-winning firm providing public and private clients with civil, structural, transportation, water and wastewater engineering, construction observation, land surveying, master planning and landscape architecture. SEC Group, Inc. serves clients from offices in Chicago, McHenry, New Lenox, and Yorkville, Illinois.
